Influenced by the atmospheric fairytales of Tim Burton and Guillermo Del Toro, the melodies of Danny Elfman, the irony of Tiger Lillies, The Residents' sterile landscape, Japanese Gothic theatre and Butoh choreography, Dirty Granny Tales transports us to a magical dark world in their own extraordinary way.

The story takes place at a time when our world is wrapped in flames. Creatures from a parallel reality visit our planet, offering desperate, frightened people a ticket to their own perfect world.

A trip to a heavenly garden surely beckons someone who sees everything around them being destroyed. In this

garden people live in peace and harmony. Everything works perfectly there...

However, good is always accompanied by evil, they are two inseparable elements, with one dependent upon the other.
